## **A high-performance task seating fabric**

Created to hit the mark, Target has been designed and manufactured with one purpose in mind – to be the ideal high-performance task seating fabric. With its high abrasion certification, Crib 5 flammability performance and flexible handle, it is the textile which is made for easy picking. A crepe weave fabric with a timeless aesthetic – simple, modern, to the point - you can be sure that Target will always be the right choice.

## **Safety, guaranteed**

Achieving commercial FR certification for public spaces – Crib 5 Medium Hazard - Target's flammability performance is incredibly robust. Ensuring that your specification never has to compromise on safety, style or stamina, this fabric is perfect for inclusion in a wide range of workspaces.

## **Performance personified**

One of the highest performing pieces in any workspace, a task chair needs to be upholstered in a fabric that can match its stamina. Achieving 100,000 Martindale cycles, Target is just such a textile. Capable of sustaining the intensity of use that is innate to computer chairs, it is more than up to the task of looking and feeling good for years to come – and with a 10-year product guarantee, you can more than take our word for it.

## **Environmental certifications**

Meeting recognised environmental standards including SCS Indoor Advantage Gold, certifying compliance with rigorous indoor air quality emissions requirements, and Standard 100 by Oeko-Tex, confirming it is free from any substances which may be harmful to human health, Target combines green credentials with performance certifications to create a fabric that is good for both you, and the environment.

## **Versatile value**

A cost-effective crepe weave fabric, Target encapsulates understated simplicity. Available in 11 best-selling colourways, its popular palette ensures that no matter the scheme, you'll be able to find the right shade for your space. Offering incredible value and versatility, Target is set to be a staple fabric in many interiors.
