Blazer Lite

Made from 100% Virgin Wool, in 42 colourways

Abundantly versatile

With a refreshed colour palette for Camira's 50th anniversary, Blazer Lite is a versatile, lighter weight, wider width adaptation of our iconic felted wool fabric, Blazer.

Revived colour palette

Available in 42 colourways, Blazer Lite's rejuvenated colour palette comprises invigorating solids and softly textured mélanges. An injection of warm terracottas, modern neutrals and lush green tones makes Blazer Lite the perfect choice for contemporary interiors.

The new colours complement not only the re-colouration of the iconic Blazer palette but also, the colour refresh of several of our other ranges for ease of specification.

Classic wool felt

Blazer Lite's familiar wool felt surface undergoes a fundamental process, known as milling, where pressure and repeated friction is applied to the fabric, entangling the wool fibres to conceal the weave and create a non-directional textile where the colour takes centre stage.

Natural and renewable

Made from premium New Zealand lambswool, Blazer Lite is spun, woven, milled and dyed at our manufacturing sites in West Yorkshire. Natural and renewable Blazer Lite is backed by an independently verified Environmental Product Declaration and certified to the EU Ecolabel.

Inviting interiors

Blazer Lite beautifully complements Blazer, Yoredale, Main Line Flax and Patternmaker. Ideal for vertical panels, curtains and drapery, Blazer Lite is also acoustically transparent for a wide range of specialist acoustic applications and therefore at home in both commercial and residential interiors.

At a glance

- Lighter weight, wider width adaptation of iconic fabric, Blazer
- Made by Camira - from farm to fabric and everything in between
- Contemporary palette for modern interiors
- Acoustically transparent and flame retardant
- Complements other Camira ranges
