Dolly

Made from 100% Wool Pile in 3 colorways

Introducing Dolly

camira

www.camirafabrics.com

An innovative take on an age-old fabric, Dolly retains the raw beauty of wool in its purest state. Bringing irresistible warmth and comfort to any space, this 100% British wool fleece makes an iconic interior statement; timelessly cool, impossibly soft, and daringly fun.

Naturally perfect

With a deeply thick pile and lustrous tactility, Dolly is available in three colorways- Jacobs, Herdwick and Shropshire. Named after the breeds of sheep, each colorway retains the natural coloration of the fleece; untouched by dyes, the authentic depth of color is embraced with every fleck visible to see.

Made to last

Nature's smart material, wool possesses an inherent robustness that makes it ideal for upholstery use. With a crimped structure, each fiber springs back to its native state after use, ensuring that Dolly retains its plush aesthetic over time.

Innovation meets tradition

A classic textile reinvented, Dolly is expertly created in Yorkshire, England. With each individual fiber knitted into a soft supple backing, this beautiful fabric takes craftsmanship to its core.

Blending the authentic properties of sheepskin with the flexibility of a rolled fabric, Dolly is a truly modern upholstery option.
