

WASTE MADE WONDERFUL

Created with a conscience, Quest is a continuation of our partnership with the SEAQUAL Initiative to combat marine plastic pollution. Woven entirely from post-consumer recycled plastic, this lightly textured, multi-application textile brings a touch of the ocean's natural beauty to commercial interiors.

SHADES OF THE OCEAN

Contemporary landscape painter Maggie Cochran specialises in coastal art, celebrating its raw beauty in paintings which evoke the unique feeling of being where sea meets land. Inspired by Quest, Maggie created a custom piece of art which pays homage to the fabric's palette - capturing its redolent, authentic colour on canvas.
